

REMARKS

Applicants maintain that the Amendment to the Specification serves to correct translational, clerical, and typographical errors.

The Amendment to the Claims serves to cover two additional embodiments of the current invention, and it serves to correct a clerical error. Applicants cancelled Claims 3-5 and re-presented them as Claims 8-10. This is due to the multiple-dependency of new Claim 8 on Claims 1-2 and 6-7, and in order to comply with 35 U.S.C. § 112 5<sup>th</sup> paragraph.

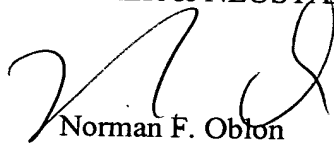

Applicants amended the Abstract in order to comply with 37 C.F.R. § 1.72.

Applicants requests that the Examiner consider and accept the above Amendment to the Specification and Claims.

Applicants respectfully submit that the present application is now in condition for review and it is believed that no new subject matter is added by this amendment.

Very truly yours,
